DoTerra Essential Oils

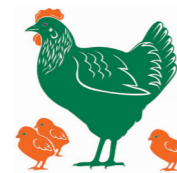

We will be focusing on essential oil usage 101 - geared to the newest oil users & curious guests. Essential oils are used for a very wide range of emotional and physical wellness applications. They can be used singly or in complex blends depending on user experience and desired benefit.

Essential oils are usually administered by one of three methods: diffused aromatically, applied topically to the skin, or taken internally as dietary supplements.

* Each adult guest in attendance can receive a FREE 5ml bottle of Wild Orange by turning in their completed wellness consult sheet at our booth any time after the presentation.
